

The Land Improvement Contractors of America plans to offer a 2 day Drainage and Drainage Water Management workshop in conjunction with the National LICA Summer Board meeting in Des Moines Iowa this July. The dates of the workshop will be July 14, 2009 for the classroom sessions with a field day on July 15, 2009. The workshop will be held at the same hotel as the Summer Board meeting, which is the Holiday Inn – Airport in Des Moines and there will be shuttle busses from the hotel to the field site. The charge for this workshop has not yet been determined. The material will feature the latest in Drainage Water Management. It is an intensive and valuable course that every drainage contractor in the Midwest should attend. More details will be available soon so watch this website for updates!
